

# Yosseeya: the 3rd dice game - Corona version

**Age:** from 3  
**Players:** 2  
**Time:** 5 minutes  
**Goal:** collect the most bars  
**Author:** Blanche Kails 24.04.2020  
**Category:** dice game

**Material:** 1 special dice 2 x green   2 x red   1 x yellow  1x white   
 [or 1 normal dice (1 - 6) and  
 1 set of dice icons and  
 1 neutral token]  
 1 picture with 1 bird  
 13 „cage bars“ skewers or ....

This game is a simplified version of the 3rd Yosseea dice game. Because children are temporarily not allowed to be in groups together.

[The special dice may be replaced by an normal dice and a set of special dice icons.]

**Goal of the game:** You want to collect as many bars as possible.

**Preparation:** You cover the picture of the bird with 13 sticks. You have the special dice at hand. [Or the dice replacing set.] Each player has the possibility to easily reach the sticks.

**How to play the game:** Each player in turn throws the dice. With the special dice you see the important colour at once. [With an normal dice you put the neutral token on the icon according to the thrown dice. Thus the player knows the colour that he has to refer to.]

**GREEN** = be **free** = the player takes a cage bar

**RED** = stay **imprisoned** = the player does not get any bar, he passes the dice on

**YELLOW** = you take 2 bars: one for yourself and 1 for the other player. (Important: first for yourself, because when at the end of the game there is only one left, you take it for yourself!)

**WHITE** = you throw the dice once more!

**End of the game:** when there is no cage bar left on the bird.

**Winner:** the player with the most bars.
